## SUMMARY

A second-year Computer Science student. My hands-on experience as intern with 1M1B has allowed me to lead environment sustainability campaigns develop my skills in data analysis and project management. I am passionate about technology, particularly in AI and software development, driven to apply my skills in real-world projects while actively seeking opportunities to grow, collaborate, and learn from the experiences and knowledge of others.

## SKILLS

- **Programming Languages:** Basics of SQL, Java, Python, C
- **Others:** HTML, Tableau, CSS
- **Language:** Fluent in English and Kannada, Conversational Proficiency in Hindi

## EXPERIENCE

**1M1B (1 Million for 1 Billion)**  
*Intern, Green Internship Program*

November 2024 – Present  
*Remote*

An organization focused on sustainability and environmental initiatives.

- Leading campaigns on environmental sustainability, promoting green practices, and collecting sustainability pledges.
- Supporting campus sustainability transformations through energy audits and waste-reduction recommendations.
- Assisting in data collection and reporting for energy efficiency and sustainability projects.
- Training in Tableau for tracking and visualizing sustainability metrics.
- Learning environmental auditing and energy-saving strategies.
- Enhancing advocacy and stakeholder engagement skills.
- Building management and collaboration expertise.

### KEY ACIEVEMENTS

- Secured 50 sustainability pledges within a month of internship.
- Team Collaboration Success; Collaborated with team to deliver project 15% before deadline.

## EDUCATION

**JAIN DEEMED TO BE UNIVERSTIY**  
*Bachelor of Computer Applications*

Expected Graduation: 2026  
*CGPA: 7.50*

- **Relevant Coursework:** CS Fundamentals, Software Engineering, Database Management, Data Analytics, Artificial Intelligence

## CERTIFICATIONS

- **Python (Coursera):** [Programming for everybody \(Getting started with Python\)](#)
- **Generative AI (Coursera):** [Generative AI](#)
- **Structured Query Language (Coursera):** [The Structured Query Language \(SQL\)](#)
- **Software Engineering (Coursera):** [Modeling Software Systems using UML](#)

## ACTIVITIES

### RESEARCH AND DEVELOPMENT

*Club Member*

- Member of R&D Club (Joined [October/ 2024] ongoing involvement)

Jain University, Bangalore  
October 2024 - Present
